

THE KING.

POWER:

9v - 18v power supply - No Battery

POWER SUPPLY:

NOT TO EXCEED 18V

Negative center/Positive ring.

Please use high quality isolated power supply

CONTROLS:

GAIN: preamp gain

DRIVE: power amp style gain

LEVEL: overall volume of pedal

DECADE: mini knob - changes
the mid frequencies

MID: midrange - passive

MOD/VINT: toggle switch - changes
the treble frequencies

} these controls work
together to shape the
midrange cut in the eq

HI: cuts treble frequencies

LO: cuts bass frequencies

INTERNAL TRIM POT

extra treble cut to help match pedal to amp

the King. has a lot of gain,
it could oscillate at higher gain levels

Thank you for your purchase

BRIAN MENA, MENATONE
