

MENATONE PIG

POWER: 9V battery or 9V power supply not exceeding 200ma,
battery access is through the four screws on the back plate

POWER ADAPTER: Negative Center - Positive Ring
After many years of repairing damage from mediocre power
supplies, Menatone now only recommends
Voodoo Labs Pedal Power supplies.
Use all other supplies at your own risk!

CONTROLS:

TREB: high frequency gain

BASS: low pass frequency gain

POWER GAIN: level for power tube like overdrive

LEVEL sets the level of volume

**The Pig is internally voltage doubled so only use
a 9v supply. Daisy chaining is not recommended**
